National Development Corporation

The National Development Corporation was established as the largest state-owned Corporation in the year 2019 for the coordination and better implementation of government development projects and programs, as well as for capacity building and economic development of the country.

The NDC is committed to implement large projects that have not been implemented in the past years due to various reasons, with a professional team and available resources, considering the lowest price and high quality in the shortest possible time.

Vision

The vision of the NDC is a free from poverty Afghanistan, accelerating development and progress process, using the available resources, participation in the country's economic growth, encouragement, strengthening and cooperation with the private and public sectors at the national and international levels.

Mission

The NDC has been established in order to integrate and implement National Priority programs, rehabilitate and activate integrated enterprises, and ensure the maximum benefit for the government and the people and it integrates and speeds up the development process of the country along with the relevant entities using the modern tools and methods.

Objectives

- Preparing a framework for guidance, management and supervision for the implementation of basic and infrastructure projects.
- Ensuring relationships and partnerships with similar institutions at the national and international levels for the purpose of transferring experiences, enhancing capacity and paving the grounds for investment.
- Structural reform of the integrated sections and developing the implementation capacity of the relevant units of the corporation.
- Developing the required capacities considering the contemporary sciences and arts to achieve self-sufficiency.
- Capacity building of an equipped and modern workforce for self-sufficiency in various sectors.
- Optimum and economical use of the resources of the National Development Corporation.

Sokuk Public Printing Press

Streams and Dams Sector:

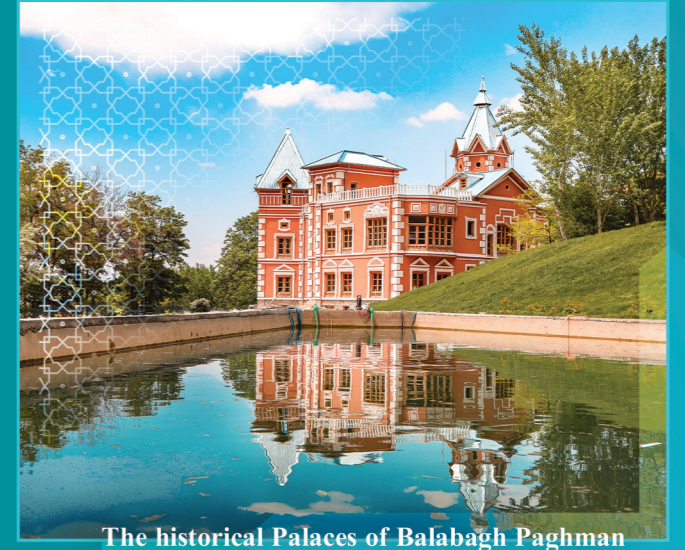

The water management of the country is one of the priorities of the National Development Corporation and there are dozens of the projects the implantation of which are underway . Digging the huge and national Qushtipa canal in the North of the country, construction of Turko and Qala Afzal canals of Kamal Khan Dam in Nimroz Province, Aabi Canal in Farah Province, Machalgho Dam in Paktia Province, Tori Dam in Zabul Province and planning and design of 42 dams are on the top of the list of NDC programs for various parts of the country .

Qush Tipa Grand and National Canal

Historic Monuments Sector:

The National Development Corporation is determined to revive the cultural heritage and historical sites of country and has commenced multiple projects throughout the country . It merits mentioning that the majority of these projects have been completed or will be completed in near future. The reconstruction and revival of the historical Dar al-Aman palace, Jabal al-Sarraj palace, the historic palaces of Bala Bagh in Paghman, the royal palace of Nangarhar, and the renovation of Pul Khishti grand mosque are among the examples of the corporation`s achievements.

The historical Palaces of Balabagh Paghman

Taraqi garden around Ghorri Cement Factories

Agriculture Sector:

The National Development Corporation has built Taraqi garden in the agriculture sector on an area of 450 acres of land near Ghorri cement factories in Baghlan province .

This corporation is planning to start the construction of Shamal Agricultural-industrial Complex in North of the country in the near future . The complex will be built according to international standards .

Manufacturing sector:

National Development Corporation has remarkable achievements in the area of production . Increasing production rate of Ghori cement factory from 400 tons to 500 tons per day, daily production of 20 to 80 tons of cement in Jabal Al Saraj cement factory, production of parts and pre-construction elements for the construction and completion of construction projects, production of oxygen, concrete block, and superfine marble are the activities of the corporation in the manufacturing sector .

Cement production factory

Balkhab Coal mines

Mining Sector:

The National Development Corporation is committed to the standard extraction of mines, the goal of which is self-sufficiency in the country, and to meet this goal the Cabinet of the Islamic Emirate of Afghanistan has decided that the coal mining area of Balkhab in Sar-e-pul province will be handed over to the National Development Corporation so that the revenues will be obtained for major and national projects .
